PROFESSIONAL SUMMARY

Entry-level Data Analyst / Business Intelligence Analyst skilled in Power BI, SQL, Excel, Power Query, DAX, data cleaning, data modeling, KPI dashboards, and business reporting. Built end-to-end analytics projects covering supply chain, e-commerce, sales, orders, delivery, product, customer, risk, and recommendation analysis. Internship experience includes dataset preparation, validation, Python-based analysis support, web scraping, requirement analysis, documentation, and workflow improvement.

CORE SKILLS

BI & Reporting: Power BI Desktop, Dashboard Design, KPI Reporting, Business Intelligence, Data Visualization, Data Storytelling

Power BI & DAX: Power Query, DAX Measures, Data Modeling, Star Schema, Fact & Dimension Tables, Slicers, Page Navigation, Conditional Formatting

SQL & Databases: SQL, PostgreSQL, MySQL, SELECT, WHERE, GROUP BY, JOINS, Aggregations, Filtering, Sorting, Subqueries

Excel: Microsoft Excel, Pivot Tables, XLOOKUP/VLOOKUP, Charts, Data Cleaning, Charts, Dashboard Basics, Data Summaries

Python Basics: Python, Pandas, NumPy, Matplotlib, BeautifulSoup

Tools: GitHub, VS Code, Google Sheets, CSV/Excel, Data Handling, Jupyter Notebook, Google Colab

PROJECTS

Supply Chain Business Transformation Analytics Dashboard | Power BI, Power Query, DAX, Excel Jun 2026 - Jun 2026

- Built an 8-page EY-style Power BI dashboard to analyze sales, profit, orders, delivery risk, product performance, customer behavior, operational risk, and business recommendations.
- Created a star schema data model with fact and dimension tables for orders, customers, products, locations, shipping, and dates to support interactive filtering and KPI reporting.
- Developed DAX measures for sales, profit, profit margin, average order value, orders, late delivery rate, late risk orders, low-profit orders, cancellation rate, and YoY indicators.
- Power Bi Dashboard Git Link:- [Click Here](#)

Olist Brazilian E-Commerce Analytics Dashboard | Power BI, SQL, Excel, Data Modeling May 2026 – May 2026

- Built an e-commerce analytics dashboard to analyze revenue, orders, products, customers, sellers, payments, delivery performance, and review patterns.
- Used SQL and Excel/Power Query for data preparation, relationship planning, cleaning checks, and dashboard-ready dataset creation across multiple related tables.
- Power Bi Dashboard Git Link:- [Click Here](#)

PROFESSIONAL EXPERIENCE

10xGrowth | Data Analytics Intern Feb 2025 - Jul 2025

- Collected, cleaned, formatted, and structured datasets using Excel and Python to support analytics and AI workflow requirements.
- Used BeautifulSoup and web scraping methods to extract structured data from online sources and convert it into clean, analysis-ready datasets.
- Performed data validation, duplicate removal, missing-value handling, and formatting check to improve dataset quality and usability.
- Prepared organized CSV/Excel outputs & summaries to help teams understand data patterns, content quality & business relevance.

Blackhole Infiverse | AI Intern Aug 2025 - Mar 2026

- Analyzed PDF-based requirement docs & converted structured business requirements into workflow-ready modules deliverables.
- Worked with Python-based data and AI workflows, including testing, validation, documentation, and accuracy checks for functional requirements.
- Collaborated with team members to integrate multiple modules into unified workflows, improving process consistency and stakeholder usability.
- Repositioned experience toward analytics by focusing on requirement analysis, data handling, validation, reporting support, and workflow improvement.

CERTIFICATIONS

Introduction to Data Science - Infosys Springboard, Aug 2024

Introduction to Natural Language Processing - Infosys Springboard, Aug 2024

Google Cloud Career Launchpad - Cloud Engineer Track, Apr 2025

AWS Academy Cloud Architecting - AWS Academy, Apr 2025

EDUCATION

Universal College of Engineering, Mumbai University | B.E. in Artificial Intelligence and Machine Learning | GPA: 7.93

ABS International School (CBSE) | HSC - PCM: 68.3% | SSC - Mathematics: 75.2%
