Missing Skills

- ✗ Attention to Detail
- ✗ Communication
- ✗ Compliance
- ✗ Edge Computing
- ✗ ISO 27001
- ✗ Incident Management
- ✗ Infrastructure Management
- ✗ Monitoring

- ✗ NIST
- ✗ PagerDuty
- ✗ Postmortem Analysis
- ✗ Prometheus
- ✗ Quality Assurance
- ✗ Security
- ✗ TensorFlow

Recommendations to Get Shortlisted

- Add these missing skills to your resume: Attention to Detail, Communication, Compliance, Edge Computing, ISO 27001 and 10 more. Include them in a dedicated 'Skills' section and demonstrate them through project descriptions or work experience.
- Highlight your experience with Attention to Detail. If you have used it in any project, add a bullet point describing what you built and the impact it had.
- Highlight your experience with Communication. If you have used it in any project, add a bullet point describing what you built and the impact it had.
- Highlight your experience with Compliance. If you have used it in any project, add a bullet point describing what you built and the impact it had.
- Your resume is a moderate match. To improve, focus on the missing skills and ensure your experience clearly demonstrates the required competencies.
